KREY DIGITAL | INDUSTRIAL PROPOSAL 2024

Global Authority

In a technical B2B industry, your website serves as your digital headquarters. We build assets that translate engineering excellence into commercial trust.

OUR MISSION

To empower local chemical manufacturers with global-standard digital presence, ensuring their technical expertise is accurately reflected online.

OUR VISION

To be the primary catalyst for the digital modernization of India's chemical industrial corridor, helping firms capture international markets.

FAST DELIVERY

14-Day Completion

EDGE HOSTING

Zero Server Latency

STRATEGY • PERFORMANCE • SCALE

Key Capabilities

Every website we build is custom-engineered for the specific requirements of industrial commerce.

INDUSTRIAL SEO

Optimized for CAS numbers, chemical grades, and technical application keywords to attract the right procurement managers.

MOBILE PRECISION

Fluid responsive design ensuring your factory profile looks perfect on tablets, smartphones, and desktops.

WHATSAPP SYNC

Direct one-tap inquiry buttons that connect international buyers to your commercial team instantly.

EDGE PERFORMANCE

Sub-2-second loading speeds worldwide, ensuring zero lead drop-off even on slower industrial networks.

SECURE SSL

Bank-grade encryption to safeguard your corporate data and build immediate trust with high-value partners.

LEAD CAPTURE

Advanced inquiry forms that deliver technical requests directly to your inbox with full customer details.

KREY DIGITAL | BUILT FOR COMMERCIAL PERFORMANCE

Modern Tech Stack

We leverage the same technologies used by industry leaders like Netflix, Nike, and TikTok to provide you with a maintenance-free, high-performance site.

COMPONENT	BUSINESS VALUE
Next.js 14	The world's fastest web framework. Guaranteed top-tier SEO and instant page transitions.
Vercel Edge	Global content delivery with 99.9% uptime. Zero hosting maintenance or server management required.
TypeScript	Enterprise-grade code architecture that prevents bugs and ensures your site remains future-proof.
Tailwind CSS	Ultra-lightweight design framework that ensures pixel-perfect industrial UI across all screen sizes.
Cloud Forms	Reliable lead delivery system that bypasses spam filters and ensures you never miss an inquiry.

Benefit: Static site generation means your website is virtually unhackable and requires no monthly security plugins.

KREY DIGITAL | ENTERPRISE-GRADE TECHNOLOGY

Site Architecture

A calculated 5-page structure designed to answer every question a global buyer has about your business.

PAGE	CORE FUNCTION
Homepage	Hero visuals, facility highlights, and key trust signals (ISO/BIS certifications).
Product Hub	A structured catalog with technical specifications, CAS numbers, and one-tap inquiry CTAs.
About Us	Focus on your manufacturing legacy, R&D capabilities, and quality control standards.
Compliance	Transparency regarding REACH, GMP, and regulatory documents to satisfy global audits.
Contact	Interactive maps, official contact directory, and a high-conversion lead capture system.

DESIGNED FOR LEAD GENERATION & TRUST

Execution Roadmap

Our streamlined 14-day process ensures your business goes live without distracting you from your daily operations.

01 STRATEGIC BLUEPRINT

Market gap analysis and product hierarchy mapping to align with global buyer search intent.

02 DATA SYNTHESIS

Organization of TDS, MSDS, and media assets for high-performance web viewing and technical clarity.

03 FRONTEND ENGINEERING

Building the site on a private staging link. You monitor real-time progress as we code the UI and SEO tags.

04 PERFORMANCE AUDIT

Rigorous cross-device compatibility testing and sub-2-second speed verification across all global regions.

05 GLOBAL LAUNCH

Live deployment to Edge nodes, DNS pointing, and commencement of your 3-month free support period.

14 DAYS FROM CONCEPT TO GLOBAL LAUNCH
