

ADVANCED MANAGEMENT WEBSITE

Complete Digital Control for Expanding Chemical
Manufacturers.

Rs. 60,000
ONE-TIME INVESTMENT

3 WEEKS
LAUNCH READY

Beyond a Brochure

For growing chemical enterprises, a static website isn't enough. You need a platform where buyers can filter catalogs, download compliance documents, and submit structured RFQs—all managed entirely by your team without touching a line of code.

OUR MISSION

To provide Indian SME chemical businesses with fully managed, dynamic digital infrastructures that streamline lead generation and product showcasing.

COMPLETE INDEPENDENCE

We build you a powerful, auth-guarded Admin Panel. Add new products, update SDS files, and track incoming inquiries in a centralized CRM dashboard. Complete independence from developers.

DYNAMIC CATALOG
Self-Managed

SECURE ADMIN
No Code Required

Key Platform Features

A fully integrated ecosystem designed for B2B chemical commerce.

DYNAMIC CATALOG

A fast, client-side filterable product grid. Buyers can sort your chemicals by category, grade, or application instantly.

SECURE SDS DOWNLOADS

SDS files are stored securely. Buyers access them via dynamically generated signed URLs, displaying accurate issue dates and versions.

PRIVATE ADMIN PORTAL

A secure, login-protected dashboard for your team to create, edit, or unpublish products effortlessly.

INQUIRY CRM INBOX

Manage RFQs directly from the admin panel. Update lead statuses (New, Contacted, Quoted, Closed) and add internal admin notes.

AUTOMATED SEO (SSG)

Every new product you add automatically generates a highly-optimized, static webpage designed to rank on Google.

INSTANT NOTIFICATIONS

Real-time email alerts triggered immediately when a buyer requests a COA, TDS, or submits an RFQ.

Enterprise Tech Stack

We deploy a premium, unified architecture that ensures speed, absolute type-safety, and seamless database management.

LAYER	TECHNOLOGY	BUSINESS VALUE
Frontend	Next.js 14	Server-Side Generation (SSG) for unmatched SEO. Client components for instant catalog filtering.
Unified Backend	Convex	Combines your Database, File Storage (for SDS), and Server Functions into one lightning-fast platform.
Authentication	Convex Auth	Impenetrable, admin-only login protection for your management dashboard.
Design System	Tailwind CSS	Utility-first styling ensuring perfect mobile-responsiveness for buyers on the go.
Email Engine	Resend	Guaranteed high-deliverability email triggers for RFQs and inquiries.

Strict Compliance: GHS pictograms, validated CAS numbers, and safety disclaimers are hardcoded into the platform architecture.

Platform Architecture

Your investment covers two distinct environments: Public-facing lead generation and Private management.

1. PUBLIC BUYER INTERFACE

Homepage & Trust	Company story, certification badges, and facility testimonials.
Product Catalog	Filterable grid displaying live data from your Convex database.
Product Detail Pages	Auto-generated pages featuring Spec Tables (Purity, Packaging), GHS warnings, SDS downloads, and a per-product RFQ form.

2. PRIVATE ADMIN PORTAL

Dashboard	Overview of total products, published status, and recent activity.
Product Manager	Comprehensive CRUD (Create, Read, Update, Delete) forms. Add new specs, upload SDS PDFs, and toggle publishing.
Inquiry Inbox	Filterable CRM tracking "New", "Contacted", and "Closed" leads.

Execution Roadmap

A precise 3-week deployment schedule, ensuring quality at every layer.

01

BLUEPRINT & SCHEMA DESIGN

Defining your specific chemical categories, packaging options, and setting up the Convex database schema.

02

BACKEND & ADMIN BUILD

Deploying Convex Auth, setting up the secure Admin Portal, and building the product creation forms and SDS uploader.

03

FRONTEND ENGINEERING

Developing the Next.js buyer interface, catalog filters, and linking the dynamic data to the public product pages.

04

QA & SECURITY AUDIT

Testing form submissions, verifying signed URL security for files, and ensuring perfect mobile responsiveness.

05

ADMIN TRAINING & LAUNCH

We train your team on using the dashboard to add products and manage leads, followed by the global Vercel deployment.

Who We Serve

IDEAL PARTNERS

- Growing Chemical Manufacturers
- Suppliers with expanding catalogs
- Businesses needing internal lead tracking
- SMEs wanting full content control

REQUIREMENTS

- Product Database (Excel/CSV)
- SDS PDF Documents
- Compliance Certificates
- Branding & Facility Assets

Scalability Note: This Tier-2 architecture is designed to scale. If you require buyer logins, personalized pricing, or ERP integrations in the future, the Convex database seamlessly upgrades to Tier-3 capabilities.

Take Digital Control

Launch a self-managed, lead-generating infrastructure today.

Rs. 60,000
One-Time System Investment

Maintenance & Hosting: Rs. 2,000/month (Optional after Year 1)
