

TIER 3: ADVANCED ENTERPRISE SYSTEM - CHEMICAL BUSINESS

B2B DIGITAL INFRASTRUCTURE

A high-performance ecosystem featuring Buyer Portals, Quote Carts, and Seamless ERP Integration.

Rs. 1,00,000

ONE-TIME INVESTMENT

35 DAYS

FULL SYSTEM DEPLOYMENT

KREY DIGITAL SOLUTIONS

ENTERPRISE DIVISION • 2026

The B2B Command Center

Tier 3 is engineered for chemical enterprises that require more than just visibility. It is a full-scale Operations Tool designed to streamline complex B2B sales cycles.

PRIVATE BUYER PORTALS

Provide VIP clients with personalized access. Secure logins allow customers to see specific pricing tiers, view their full RFQ history, and access restricted technical documents.

STREAMLINED RFQ FLOW

Move away from single-email inquiries. Our Multi-Product Quote Cart allows buyers to request pricing for 10+ chemicals in one structured submission, complete with quantity and packaging specs.

EDITORIAL AUTHORITY

A full Technical Blog & Newsroom. Publish whitepapers, facility updates, and market reports to establish your brand as a global thought leader and dominate SEO.

Platform Capabilities

AUTHENTICATED ACCESS

Role-based security for both buyers and internal sales staff. Secure profile management and data protection.

MULTI-PRODUCT CART

E-commerce style "Add to Quote" functionality. Streamlines bulk inquiries for high-volume B2B procurement.

GATED DOCUMENT LIBRARY

Track document access. Ensure only verified buyers can download latest-version SDS/COA files.

ERP & API WEBHOOKS

Ready-to-connect hooks. Sync website leads directly with your existing Tally, SAP, or custom CRM systems.

INDUSTRIAL SEO ENGINE

Next.js ISR (Incremental Static Regeneration) ensures every product and blog post is indexed by Google instantly.

ADVANCED DASHBOARD

Full operations control. Approve new users, manage pricing tiers, and monitor sales trends in real-time.

MODULE OVERVIEW

PAGE 03

Sales & Operations Panel

Your Admin Panel evolves into a comprehensive Sales Management Platform.

MODULE	TIER 3 ENHANCEMENT	BUSINESS VALUE
User Management	Approve/Block Buyer Accounts	Total control over who sees your technical data.
Quote CRM	Grouped multi-item RFQs	View entire projects, not just isolated emails.
Document Control	PDF Version History	Ensure regulatory compliance with SDS version tracking.
Lead Tracking	Buyer behavior analytics	See which products your VIP clients are searching for most.

UNMATCHED SPEED

Tier 3 uses Vercel Pro hosting with global edge caching. Your site will load in under 1.5 seconds for buyers in Europe, the USA, or the Middle East, giving you a massive competitive advantage in global exports.

INTERNAL WORKFLOW

PAGE 04

The Enterprise Stack

We deploy on a Pro-tier stack designed for maximum uptime and global security compliance.

STACK LAYER	TIER 3 SELECTION	IMPACT
Framework	Next.js 14 (ISR)	Instant page updates without full site rebuilds.
Infrastructure	Vercel Pro	High bandwidth, priority support, and team collaboration.
Security	Cloudflare Pro	WAF, DDoS protection, and India-specific edge nodes.
Database	Convex Enterprise	ACID compliant real-time data sync for secure quotes.
Email	Resend Enterprise	Guaranteed high-deliverability for transaction emails.

NEXT.JS + VERCEL PRO

Deployment Roadmap

- BLUEPRINT & UX STRATEGY**
Mapping buyer journeys, defining "Private Pricing" logic, and designing the account portal.
- CORE PLATFORM BUILD**
Developing the database, authentication logic, and secure document vaults.
- PORTAL & CART INTEGRATION**
Engineering the multi-product quote system and the private buyer dashboard.
- ERP HOOK & API SYNC**
Setting up webhooks to push website leads directly into your internal management software.
- HANDOFF & TRAINING**
Comprehensive sales-team training on lead management and blog publishing.

35-DAY DELIVERY CYCLE

PAGE 06

Enterprise Readiness
